NUNNER LOGISTICS + Overseas Partners

NUNNER
LOGISTICS

Heavy Lift & Project Cargo Specialist
www.nunner-logistics.com

By working in close co-operation with their fellow PCN Members, Nunner Logistics provide first class local service on a truly international scale.

THE WORLD'S TOP PROJECT CARGO SPECIALISTS

Project Cargo Network (PCN) is an organisation established to provide a networking platform for the world's top project cargo specialists.

Together with their fellow PCN overseas offices, Nunner Logistics can handle the transportation of oversized and heavy items or shipments that consist of complex components that must be disassembled, shipped and then re-assembled.

Nunner Logistics offer clients the personal local service and flexibility that only a privately-owned forwarder can, providing comprehensive logistics solutions through local people who have an in-depth understanding of their market.

Nunner Logistics can offer project cargo management for engineering, procurement and construction companies servicing energy, mining, chemical, petrochemical, pipeline, infrastructure and other sectors. These highly specialist shipments require individual transport planning from origin to destination.

The current world trend for green energy and the substantial investment in clean energy technology is providing a rapid increase in business opportunities for project cargo specialists who have the required capabilities in the supply chain management of

oversize plant and equipment, i.e. wind turbines.

Because most PCN Member offices are managed by privately-owned independent companies, they can focus 100% on providing a personal service that is tailored to client's needs.

Some multinational transport companies are restricted by inflexible policies and procedures.

Nunner Logistics and their fellow PCN Members can accommodate specific requests and make immediate decisions and recommendations on each individual shipment.

QUESTION

Why use
NUNNER LOGISTICS?

Speed

Nunner Logistics has a staff of dedicated professionals that make sure of the accurate and timely submission of client's official documentation.

Handling

Nunner Logistics understand that part of their responsibility is to fully support client's through all procedures. If a problem does arise, Nunner Logistics can draw upon their established relations with carriers in order to obtain a favourable resolution.

Information

Due to the changing times, many countries have adopted more comprehensive procedures with regards to regulating commodities that are accepted at their ports, including how they must be shipped and what sort of documentation must accompany them. Nunner Logistics ensures that clients are kept up to date with requirements and procedures in order to avoid timely and potentially costly mistakes.

Purchasing Power

Nunner Logistics understands that cost is an important factor for their clients. Due to established relations with carriers, Nunner Logistics are able to offer exceptionally competitive rates to many destinations across the globe.
